 - Polines Launches New Research Center**: "Polines has launched a new research center focused on renewable energy." (date: 12 January 2025 - 14:31) with a thumbnail image.

Latar Belakang

Pendidikan tinggi memiliki peran penting dalam membentuk masa depan, namun banyaknya pilihan kampus sering membingungkan calon mahasiswa. Informasi tentang kualitas akademik, fasilitas, lingkungan sosial, dan prospek karier sering tersebar dan sulit diakses, ditambah minimnya ulasan langsung dari mahasiswa atau alumni.

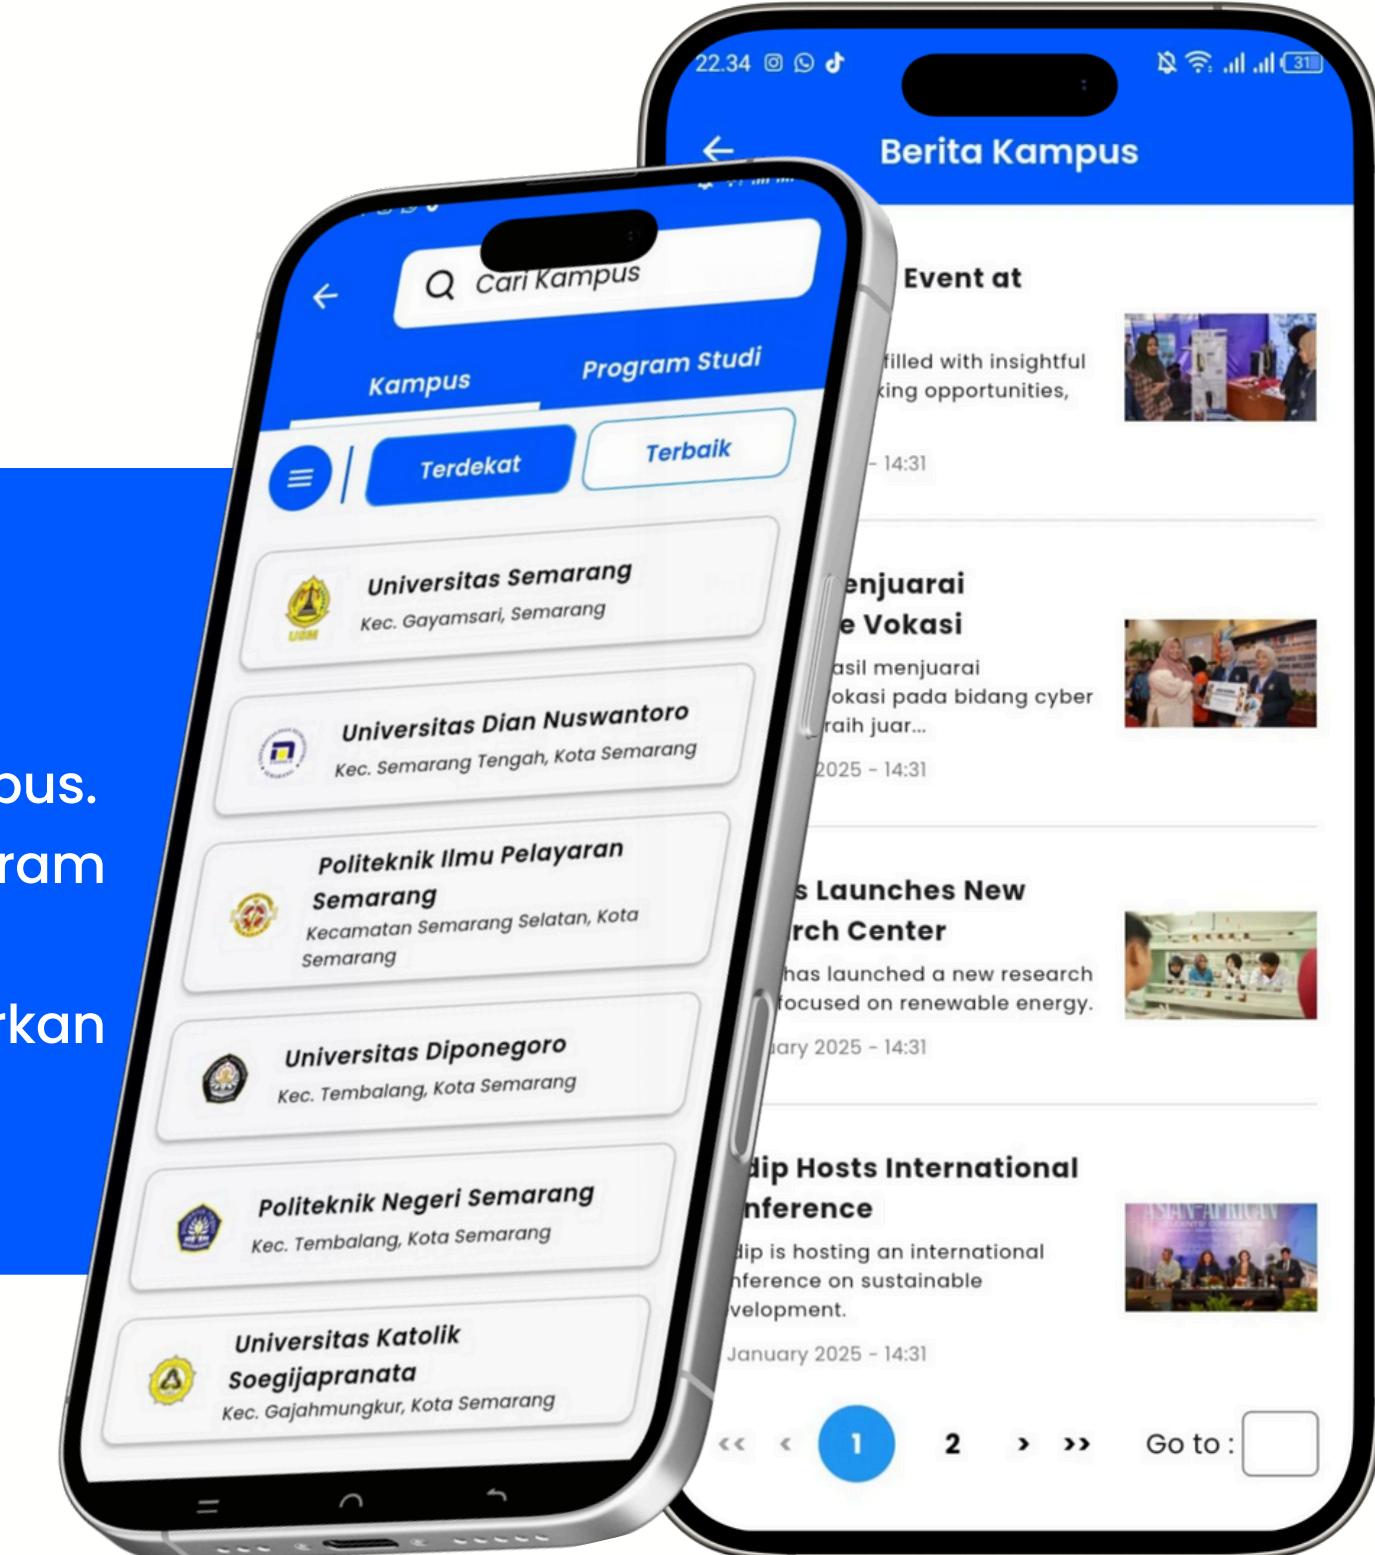

UnivGo hadir sebagai platform yang menyatukan informasi terstruktur dan ulasan terpercaya. Dengan fitur pencarian, perbandingan, dan akses data yang lengkap, UnivGo memudahkan calon mahasiswa memilih kampus berdasarkan lokasi, aksesibilitas, dan kebutuhan secara objektif.

Manfaat Aplikasi

- Memilih kampus berdasarkan lokasi terdekat.
- Mendapatkan berita terkini terkait kampus
- Memberikan komentar dan ulasan tentang kampus.
- Mencari kampus berdasarkan jurusan dan program studi.
- Membandingkan beberapa kampus berdasarkan kriteria tertentu.

UnivGO

UnivGO adalah aplikasi direktori kampus yang dirancang untuk memudahkan kamu dalam menemukan informasi seputar kampus di Indonesia. UnivGO memudahkan kamu menemukan kampus terdekat, top 10 PTN, politeknik, dan swasta terbaik, serta berita kampus dan fitur pencarian program studi.

Akses Website

The image displays two side-by-side interfaces. On the left, a white rectangular box contains the UnivGO login form. It features a logo with a blue 'U' and the word 'UnivGO' in blue. Below it, the text 'Masuk ke akun Anda' is displayed. The form includes fields for 'Alamat email*' and 'Kata sandi*', both with accompanying input boxes. There is also a checkbox labeled 'Ingat saya' and a blue 'Masuk' button at the bottom. On the right, a large blue rounded rectangle represents a smartphone screen. It shows the UnivGO app's home screen, which features a circular profile picture of a smiling person in a pink shirt, with a blue 'U' icon in the top right corner of the circle. Below the profile picture, the text 'UnivGO' is written in white, followed by the tagline 'Find your Campus Everywhere, Anytime'.

Metode Pendekatan Aplikasi : Kanban

- Visualisasi Alur Kerja: Menggunakan papan visual untuk memantau tugas dari awal hingga selesai.
- Fleksibel dan Sederhana: Cocok untuk tim yang bekerja di lingkungan dinamis.
- Batasan WIP: Membatasi jumlah tugas yang dikerjakan sekaligus untuk fokus dan efisiensi.
- Adaptif terhadap Perubahan: Mudah menyesuaikan dengan kebutuhan yang berubah.
- Efisiensi Alur Kerja: Membantu tim menyelesaikan tugas secara terorganisir tanpa batasan waktu seperti sprint.

Penggunaan GitHub untuk Kolaborasi

GitHub digunakan untuk memudahkan kolaborasi dengan memisahkan pengembangan fitur ke dalam branch berbeda. Ini membuat proses pengembangan lebih terorganisir. Kami juga mengutamakan readability kode dan menerapkan conventional commits untuk setiap perubahan, sehingga memudahkan tim dalam memahami setiap pembaruan kode.

Kesimpulan

Pengembangan Modul Search selesai, dapat diimprove :

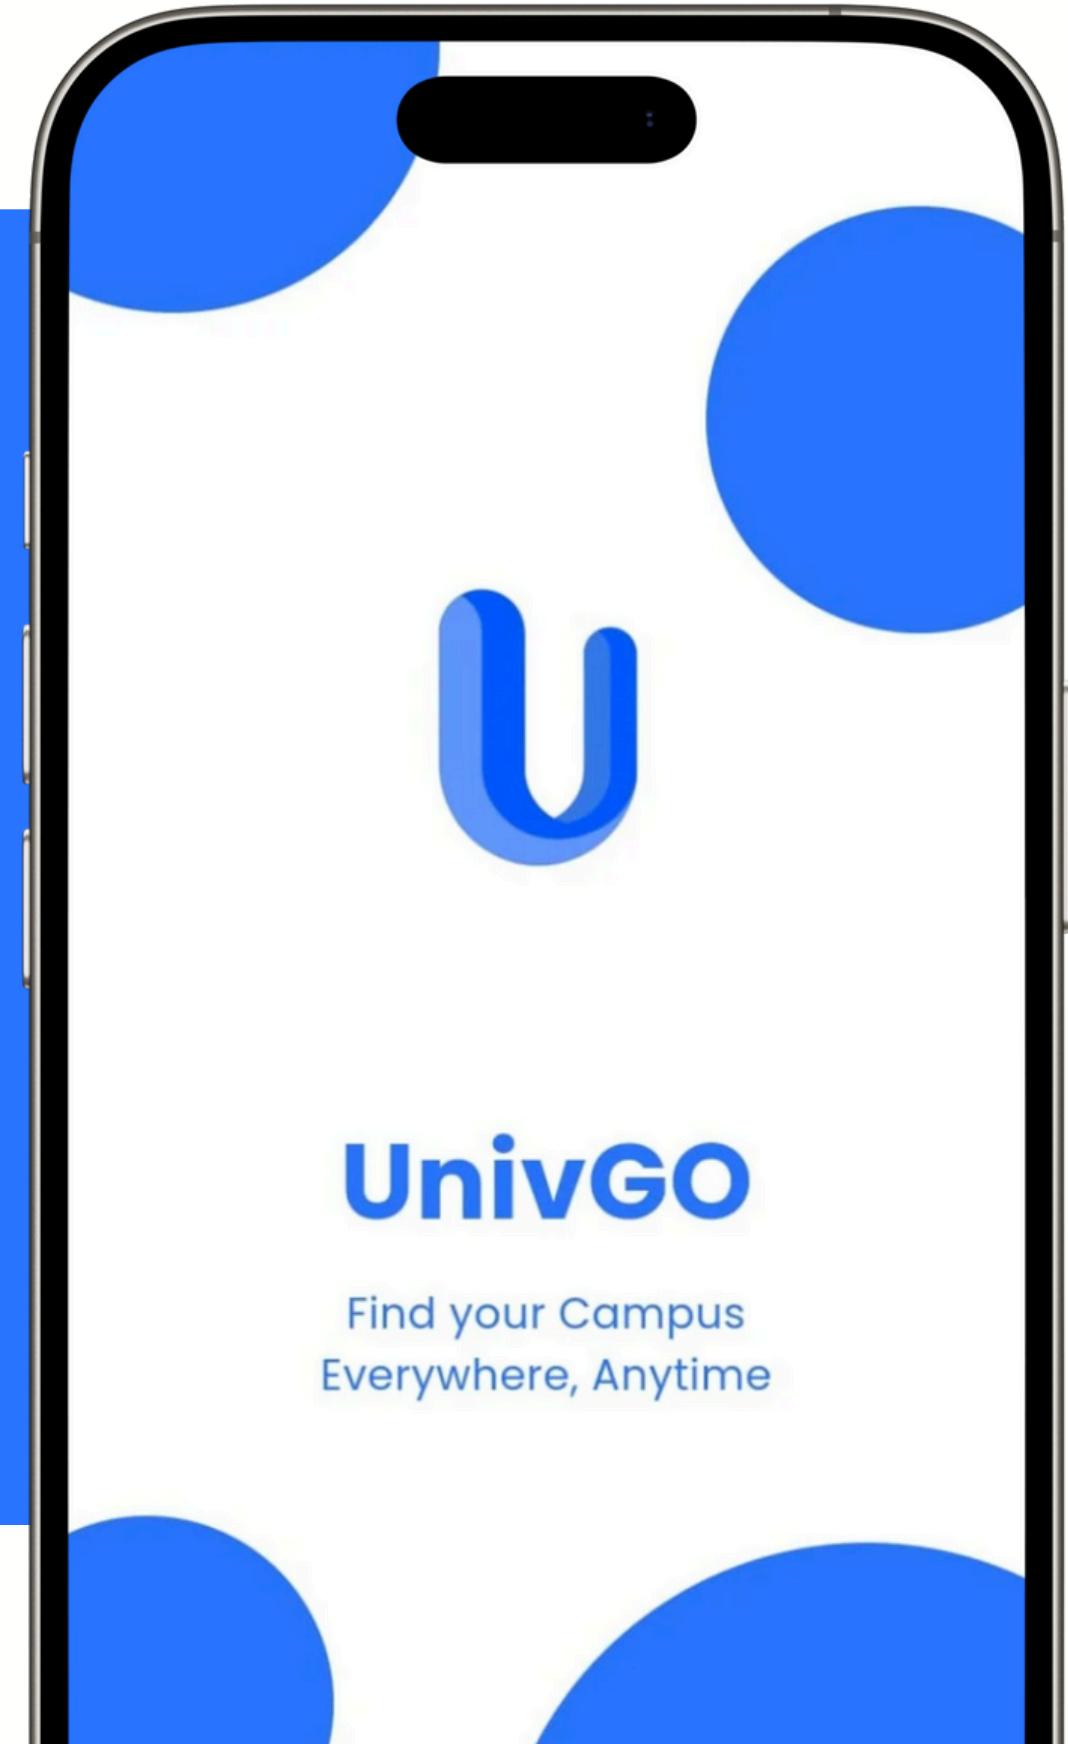

1. Search yang lebih fleksibel dengan sistem tag
2. History Search
3. Sort by Rating
4. Filter by Jalur Masuk

Pengembangan Modul Berita selesai, dapat diimprove :

1. Rich Text, multiple images

Pengembangan Modul Web dan admin selesai, bisa diimprove dengan menyediakan modul direktori di web itu sendiri.

Problem secara keseluruhan adalah desain dan juga data inconsistencies

Thank You
